SCRUBBER WITH PRE-SWEEP UNIT

# CILINDRICAL RIDE-ON SCRUBBER

The Meijer SR750C is a highly advanced scrubber, known for its impressive performance and ease of use. Equipped with two cylindrical scrubbing brushes (65 cm wide) and two sweeping brushes at the front, it easily sweeps and scrubs small debris from floors.

The sweeping brushes have a working width of 100 cm, and the scrubbing brushes measure 18 x 62 cm in diameter. This makes the Meijer SR750C ideal for supermarkets, production sites, shopping centers, swimming pools, and showrooms.

With a clean and dirty water tank of 110 liters each and an adjustable brush pressure ranging from 30 to 40 kg, the Meijer SR750C delivers excellent cleaning results, even on tougher surfaces.

Want to know more about the Meijer SR750C? Feel free to contact us, and we'll be happy to provide you with more information!

## THIS SCRUBBER IS ESPECIALLY SUITED TO THE FOLLOWING TYPES OF DIRT:

- ✓ Liquids
- ✓ Tough stains
- ✓ Grease
- ✓ Oil
- ✓ Dust and particulate matter

TECHNICAL SPECIFICATIONS	VALUE
Theoretical productivity up to	5.000 m <sup>2</sup> /h
Scrubbing width	65 cm
Squeegee width	90 cm
Sweeping width	100 cm
Autonomy up to	4 hours
Solution tank capacity	110 liter
Recovery tank capacity	110 liter
Number of cylindrical brushes	2 (Ø21 x 62 cm)
Motor power source	24V Battery
Maximum gradient	7%
Maximum working speed	8 km/h
Brush pressure	30-40 kg
Traction on	Front wheel
Sound level	62 dB (A)
Weight (incl. batteries)	565 kg
Dimensions (LxWxH)	159 x 88 x 124 cm
